

# Temperature & Shade Tracker

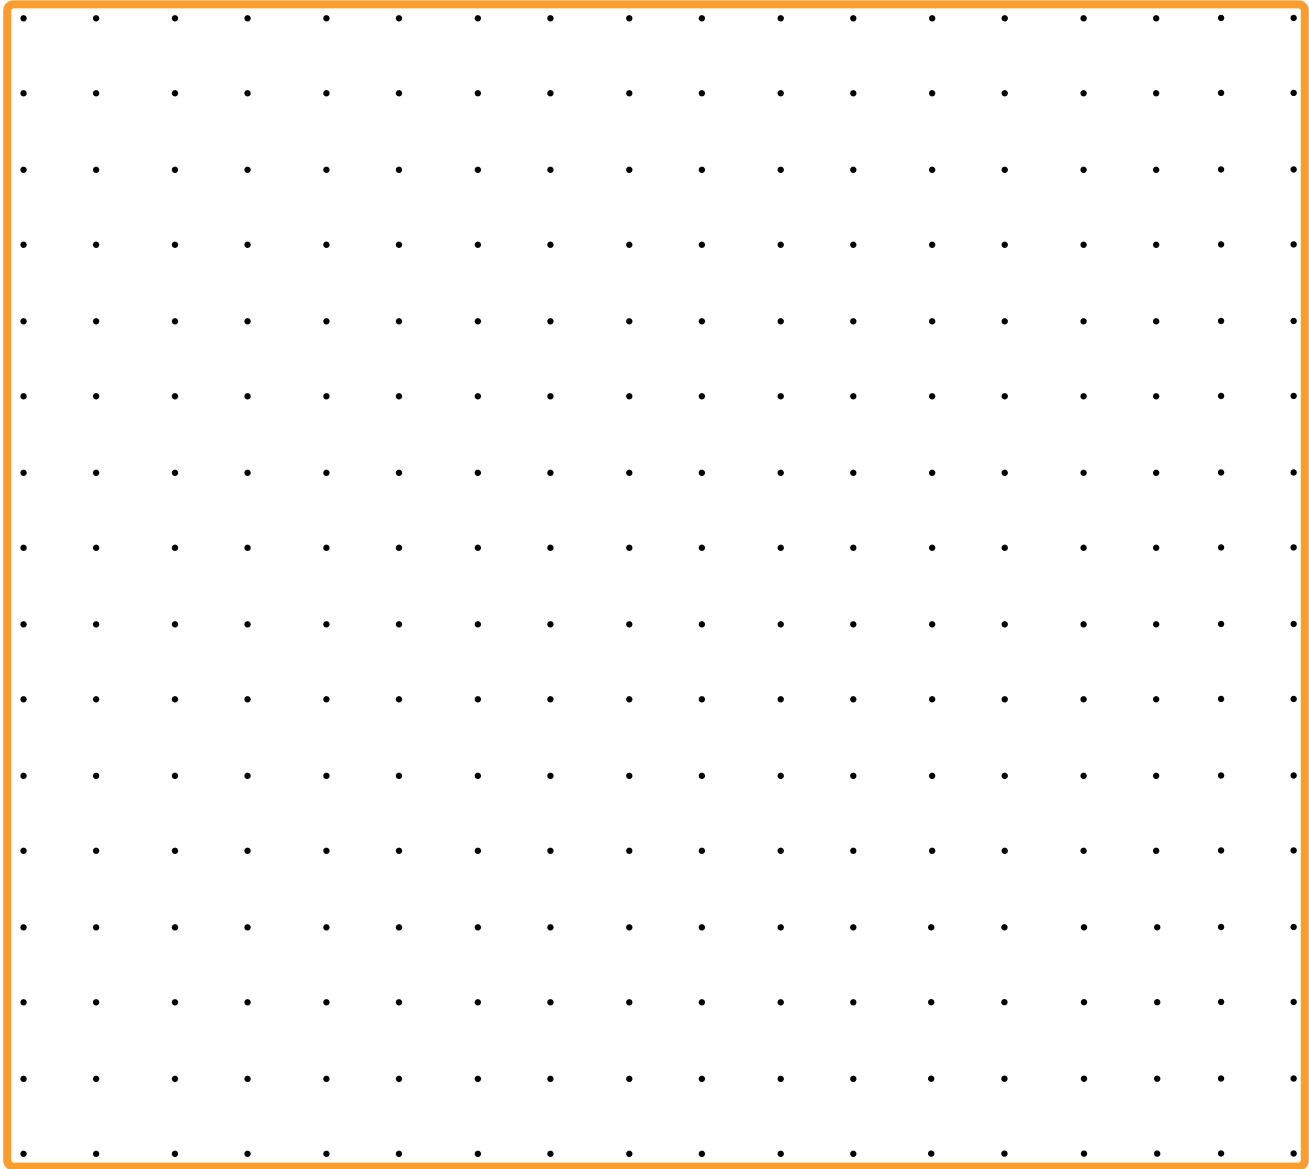

Date:

Time:

Location	Shaded or Unshaded	Temp (F)	How it Feels	Ideas for More Shade
	<input type="checkbox"/> Shaded <input type="checkbox"/> Unshaded			
	<input type="checkbox"/> Shaded <input type="checkbox"/> Unshaded			
	<input type="checkbox"/> Shaded <input type="checkbox"/> Unshaded			
	<input type="checkbox"/> Shaded <input type="checkbox"/> Unshaded			

## Shade Map Grid

Use this as a visual guide to tracking shade data on your route. You can use this as a simple schoolyard/block grid and color in shaded areas blue and sunny areas yellow.

### Prompts to reflect on:

- Where did you feel the hottest or the coolest?
- Where could trees or shade shelters go?
- Which of these areas do you see people spending more time in?
